**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, drawn to a Coanda flow amplifier.

Group II, claim(s) 13-14, drawn to a method of operating a Coanda flow amplifier.

Group III, claim(s) 15-20, drawn to a fuel cell that contains a Coanda flow amplifier

The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Claims of group I are drawn to a Coanda flow amplifier that has apparatus components such as suction inlet, outlet, drive flow inlet, drive flow discharge slit and

sealed housing section. Claims of group II are drawn to a method to operate the Coanda flow amplifier that includes feeding the fluid flow, drive flow and adjusting the variable flow to operation of the Coanda flow amplifier. Group III utilizes the Coanda flow amplifier in the fuel cell system. Horii et al EP0456931 disclose the components of the Coanda flow amplifier (Fig 1a, 1b, 1c, Fig 2 and 3). Horii et al also describe the operation of the Coanda flow amplifier utilizing the flexible hose and compressed air. Because the special technical feature is taught by the prior art, restriction is proper.

A telephone call was made to **Attorney Gary R. Edwards 202 624 2500** on **09/29/2009** to request an oral election to the above restriction requirement, but did not result in an election being made. Attorney Edwards wanted the restriction in writing.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
